

Section 1 of this document gives a brief overview of the country, whilst section 2 contains the customs requirements.

Section 1 – CANADA OVERVIEW

Canada is a vast country with a strong economy, multi-cultural society and spectacular scenery, attracting great numbers of immigrants from all over the world. Located in the northern part of North America, extending from the Atlantic to the Pacific Ocean, Canada is the second largest country in the world. Originally inhabited by aboriginal groups, explorations in the late 15th century led to British and French settlements. Despite its size, Canada is one of the most sparsely populated countries in the world. Nowadays it is a parliamentary democracy and a constitutional monarchy, with both English and French as official languages. Canada is one of the world's leading economies, relying heavily on the country's diverse natural resources and mineral reserves. Canada can also boast a high life expectancy for its citizens, good levels of literacy and school enrolment, and is considered to have the highest quality of life in the world, according to the United Nations Human Development Index.

While Canada might not be as diverse as the US, it offers a truly multi-cultural atmosphere, a better quality of life than many European destinations, stunning places to visit, and a variety of employment opportunities.

The list should indicate the value, make, model and serial number (when applicable) of all the goods (if you have chosen Simpsons export packing option then we will prepare the inventory on your behalf as part of the packing and wrapping process. We won't be able to include the value as this is something that must be completed by the owner). Upon arrival you must report to Customs and inform them that you have goods to follow. Canadian Customs will supply a B4 Personal Effects Accounting Document, based on the list provided and give you a stamped and receipted copy. Our representatives will supply a Canada Customs Brokerage form which you will be required to complete and return with a full, descriptive inventory in English, destination agent's "Notice of Arrival" and your receipted copy of the "B4" declaration.
